LEADER PROFILE

Ambitious and innovative leader, with a passion for making new solutions, "let's make the future".

An extraordinary drive to create a work environment, that ensures high performance through employee satisfaction, and inclusive leadership.

PERSONAL PROFILE

Birthday: 23rd of December 1977

My husband and I are living in Taarbæk, 2930 Klampenborg, but we also enjoy time in our summerhouse, a charming old city house in Stubbekøbing, so we enjoy both being close to Copenhagen as well as our weekends in the countryside.

I have three adult children aged 27, 25 and 20. They are no longer living at home, so family time is mostly during weekends.

We have a well-grounded family, and my main priority is spending any spare time with family and friends. In addition, I try to get out three times a week for a run, and ski trips in the winter. Not to forget the weekly Badminton court with my two grown up boys.

PROFESSIONAL PROFILE

I am extroverted with an attitude of "Just do it". This is reflected in my leadership style, where I create a goal driven environment with focus on results.

Creating the settings for an inclusive, trustworthy, and fun workplace, where everyone is using their maximum capability and keep on pushing the boundaries for innovation - every day! Let's do this together! Will be ingrained in the teams I work with.

I have a high energy level, so I am always engaged in extra activities, this has led me to participate in different interesting responsibilities:

- From Sep 2023: Part of the newspaper Børsen official stock team (Børsens Aktie Panel).
- Nordea's representative towards FBV.
- Member of ShadowBoard, Nykredit Wealth Management.
- Health and safety representative for NPA management, securing a "green" smiley.
- Steering and driving a Strategic "New Lean" project for the Management in Nykredit, a large cross unit project.

WORK EXPERIENCE

Norrild Consult: Owner of Norrild Consult

April 2023 – Project Manager of IBAG in Denmark
Through a Consultancy agency, project Manager in E-nettet/Finans Danmark, ensuring a new roadmap and solution to the IBAG model. This is a large project in the financial industry, that will have an impact on all listed companies in Denmark, and all custodian banks in Denmark.

Nordea: Global Head of Issuer Services

March 2022 – April 2023
I had teams in 5 countries, with a total of 37 employees, and a deputy running my operation in Finland.

Nykredit: Head of Client Onboarding, Corporate Action, Custody Services, Issuer Services & Tax

May 2021 - March 2022
Expanding the manager role, as daily manager of several teams, with 29 employees.

Nykredit: Head of Client Onboarding

June 2017 - May 2021
Focus on employee satisfaction, and high-performance teams.

Danske Capital: Specialist

June 2010 – June 2017
Specialist in operation, with Reconciliation and Corporate action. Focus on audit, data solutions, and implementation of new solutions.

SparLolland: Head of Backoffice

August 2007 – June 2010
Focus on daily operation and representing SparLolland in business related networks.

IT PROFILE

I have an overall curiosity to learn new IT systems, so I have a broad and deep understanding of different systems.

I have worked intensively with Robotics and use of A.I. in Wealth and Asset Management Operations, furthermore I have hands on experience with development and implementation of robots. I facilitated an innovation workshop for all of Wealth Management leaders in Nykredit. I have also attended different A.I and robotics workshops both in Denmark and in London. The Robotics Product Owner role in Wealth Management Nykredit, was directly placed within my team.

Simcorp Dimension

Extremely High professional level.

12 years' experience.

Implementation of new projects and modules.

Setup, and development in e.g.: Bank Accounts, Cash Bucket, Custodies, Fund Definition, Fund Certificate, Portfolios, Portfolio Groups, Defaults, Transactions Status, Message Queue, General Reconciliation, Templates, DFS.

Data link in the setup to external and internal systems.

September 2008

Bachelor HA Almen – CBS/Celf

August 2001 – April 2005

LEADERSHIP QUALIFICATIONS

Organizational Strategy Implementation

The ability to ensure implementation of company strategy, as a "bottom up" cultural change. When the employees are involved and empowered, a new strategy will establish better success at all levels of the organization.

Develop High-performance teams

Using specific methods of high-performance theory to ensure team performance that will outperform individual capabilities. Focus on inclusive leadership and getting everyone on board the team mission.

Ensure Innovation and Next step solutions

Making sure that we continuously are seeking new solutions, and optimization of both human resources combined with IT resources.

Creating a great work environment with high employee satisfaction

Focus on creating the right settings for employees to "kick ass" and having fun. Acting as a motivator daily for colleagues and employees.

RISK & GOVERNANCE QUALIFICATIONS

I have an almost nerdy insight into the Risk & Governance area. I have been steering and working on numerous projects in the financial Industry.

GDPR - Implementation in Nykredit

I was part of the implementation project in both the larger Nykredit Group, and also with primary responsibility of the unit, Wealth Management Operation.

This project entailed workforces, new SOP's, review and mapping of data protection and storing. I worked very closely with both external

SOME FUNNY STUFF

Nerdy relation to new Regulations

I have spent many Saturday and Sunday mornings with my coffee, reading and highlighting specific phrases in the regulations. Through this profound interest in the regulations within the financial industry, I have attained a deep understanding of the responsibility we carry.

Creating great network

A lot of my professional success can be linked to my ability to create and maintain a large network, both within the organization and with external partners and customers. To create the best solutions for customers we need to be able to work closely both within our own value chain, but also with our extended value chain.

"Crazy" Ideas

I never stop getting new ideas to ensure we are ready for the future. I held a session "The Robots are Coming" for the top management in Nykredit, including the CEO, with a Keynote speaker we flew in from London.

I once held a competition in Operation on who could get the lowest faults in the new compliance and AML online test. (The winner had only 3 mistakes out of more than 150 questions)

In all my teams, I have introduced the concept of a monthly or weekly team star. Ensuring that the colleagues are praising each other for extraordinary achievements and help they have given to team colleagues.

I have arranged a "best at customers" day cross units, with Nykredit Portfolio Administration and Wealth & Markets Operations.

and internal audit to ensure that we created a bulletproof clean up, but most importantly a bulletproof method to keep us compliant. This was done with the development and implementation of new tools. I was part of creating and defining those tools.

MIFID II Regulation – Gap and readjustment project in Nordea

I have been steering a gap analysis and a readjustment, cross unit, project in Nordea Trading and Custody Services. The aim was to ensure compliance on the trades reported to the FSA. This entailed a lot of cross unit management and stakeholder meetings.

SRDII – Implementation in Nykredit

The implementation of SRDII ensured, amongst other things, that shareholders had the opportunity to vote at general meetings. We launched a large project, that ensured correct documentation in many countries; this entailed a total new setup of both internal procedures, and external setup with new voting platform suppliers.

Work area descriptions, SOP'S & PD's, and Risk Matrix

My teams have always been "Best in Class", ensuring that all our internal documentation on how to perform work according to procedures, regulations, and risk, are beyond expected. This entails; work area descriptions, PD's, SOP's, accurate risk matrix, and extensive control setup.

LANGUAGE QUALIFICATIONS

Danish – fluently, my mother tongue

English – fluently, on a high academic level

German – general level of speaking and understanding
